

FORTY LOVE

*“It starts with love”*

## About FORTYLOVE

FORTYLOVE makes clothes which is a sustainable and long-lasting because of their high-quality materials. We want to help to minimize and mitigate the detrimental environmental impacts that the fashion industry has.

We would like to show people that recycled fabrics can be comfortable, elegant, and functional enough for tennis pro players.

# Collaboration with REPREEVE

“Repreve® is not only finding a new life for recycled materials! Compared to virgin fiber, these eco-friendly fabrics have fibers created using a new type of petroleum.”

“We believe that FORTYLOVE is just one of many companies which want to change the fashion industry and encourage other brands to follow similar perceptions”

Monika Stanikova, founder
